

## IN THE CLAIMS

1. (Cancelled)

2. (Currently Amended) The ~~use~~ method according to claim ~~1~~ 10 ~~for the manufacture of wherein~~ a pharmaceutical composition further comprising zinc (Zn) is administered.

3. (Currently Amended) The ~~use~~ method according to claim ~~1 or 2~~ 10 ~~wherein for the manufacture of wherein~~ a pharmaceutical composition further comprising manganese (Mn) is administered.

4. (Currently Amended) The ~~use~~ method according to claim ~~1~~ 10 ~~for the manufacture of wherein~~ a pharmaceutical composition comprising:

- a) 2 - 5 g of each of L-serine and L-isoleucine,
  - b) 0.5 - 6 mg of each of chromium (Cr), tin (Sn), selenium (Se), vanadium (V) and wolfram (W) salts, and
  - c) 1 - 2 mg of folic acid:
- is administered.

5. (Currently Amended) The ~~use~~ method according to ~~any of the previous claims~~ claim 10 ~~for the manufacture of wherein~~ a pharmaceutical composition further comprising neurogenic lipids is administered.

6. (Currently Amended) The ~~use~~ method according to ~~any of the claims 1 - 4~~ claim 10 ~~for the manufacture of wherein~~ the composition to be administered is in powder form.

7. (Currently Amended) The ~~use~~ method according to claim ~~5 of 6~~ 10 ~~for the manufacture of wherein said composition is administered as a~~ a dietary supplementation composition.

8. (Original) A pharmaceutical composition comprising as sole pharmaceutically active ingredients:

- a) L-amino acids serine (Ser) and isoleucine (Ile),
- b) trace elements chromium (Cr), tin (Sn), selenium (Se), vanadium (V) and wolfram (W), and optionally zink (Zn), and
- c) folic acid.

9. (Original) The pharmaceutical composition according to claim 8 comprising as sole pharmaceutically active ingredients:

- a) serine (Ser) and isoleucine (Ile),

b) chromium (Cr), tin (Sn), selenium (Se), vanadium (V) wolfram (W) and zinc (Zn) salts, and

c) folic acid.

10. (Original) Method of treating or preventing psoriasis, wherein pharmaceutically active amounts of:

a) L-amino acids serine (Ser) and isoleucine (Ile),

b) trace elements chromium (Cr), tin (Sn), selenium (Se), vanadium (V) wolfram (W), and optionally zinc (Zn), and

c) folic acid

are administered to a subject in need thereof.
